Leveraging the power of AI

Team Details

a. Team name: AlgoArtists
b. Team leader name: Durvankur Joshi
c. Problem Statement: Open Innovation

Problem Statement:

Beginners struggle to understand existing codebases.
Error message and logic feel overwhelming.
Learning platforms explain syntax but not real code
Mentors and teacher are not always available.

Our Solution:

Takes any code snippet.
Explain it in simple, beginner-friendly language.
Breaks down logic, syntax, and flow.
Works instantly using google AI models

Opportunities

a. **How different is it from any of the other existing ideas?**

Existing platforms focus on syntax explanation, not real code understanding
Many tools provide complex or technical explanations
Most solutions are not beginner-focused
Paid tools or heavy IDE-based solutions reduce accessibility

a. **How will it be able to solve the problem?**

Converts complex code into easy-to-understand explanations
Explains what the code does, how it works, and why it is used
Helps beginners learn by understanding real code
Enables self-learning without mentor dependency
Works instantly using Google AI

List of features offered by the solution

- AI-Powered Code Explanation.
- Multi-Language Code Support
- Beginner-Friendly Output
- Simple & Clean User Interface
- Real-Time Code Input
- Web-Based Platform

Google Technologies used in the solution

- Google AI Studio
- Gemini Language Model.
